

BARTOLI

KRAFTON® Natural

KRAFTON® NATURAL cardboard, is safety and innovation. It is the result of a thorough research and development process, it offers high values in terms of stiffness and strength guaranteed over time as well as excellent peel strength even in wet conditions due to low absorption properties. The company's new technology, CROSS FIBER TECHNOLOGY (CFT), is able to offer equal mechanical and behavioral performance to the insole.

DESCRIPTION

IMAGE
SCALE 1:1

FEATURES

COLOR	PRINT	THICKNESS	MASTER SHEET	STANDARD SIZES
beige	white	1,0 - 3,5 mm	3300 x 4800 mm	sheets 1070 x 1570 mm
				sheets 1540 x 1570 mm
				sheets 1540 x 960 mm
				sheets 1540 x 1280 mm

MECHANICAL TEST

TESTED BY

"Our environmental policy, which began many years ago, has always been oriented toward a scientific approach, never ideological, making use only of well known certifications issued by qualified and internationally accredited institutes, in compliance to the regulations and norms of over 80 countries where Bartoli company operates and private international brand requirements."

APPLICATION

50% RECYCLED + 50% VIRGIN FIBRES

COMPOSITION

Recycled raw materials are carefully selected and controlled by the qualified supply chains. We use high performances pulp which pass both mechanical and chemical tests.

In cooperation with Intertek laboratories, for the chemical monitoring by constant tests on our raw materials and products in compliance with international regulations. In addition, the most restrictive limits of luxury brands become our benchmark limits.
